📍 Stockholm, Sweden

My name is Anna Vestman and I am trained as an Online Video Producer at Medieinstitutet. As a person, I am social, energetic, solution-oriented, determined, and attentive. I find it easy to connect with different kinds of people, which may come from my extensive experience in service roles where I interacted with many different individuals on a daily basis.

I have a strong interest in continuously learning new things. Whenever there is something specific I want to learn, I actively look for ways to develop that skill and often spend time outside of work watching tutorials and taking courses to keep improving. I am very creative and enjoy most aspects of working within media.

I also enjoy networking and meeting new people. I thrive in fast-paced environments and dynamic workdays. I work well in teams but am also comfortable working independently when needed. I am attentive, efficient, and focused on getting things done.

I chose to study front-end development because I wanted to broaden my skill set within media — from camera work and video editing to building websites. My goal is to have a complete portfolio that combines several different parts of media production.

I look forward to hearing from you and hope to have the opportunity to tell you more about why I would be a great fit for your team.

Kind regards,
Anna Vestman
